SUMMARY

Full Stack Web Developer with production experience across two ecosystems: JavaScript (React.js, Next.js, Node.js, Express.js) and enterprise .NET (ASP.NET Core MVC, C#, Entity Framework Core). Proficient in AI-assisted development and vite coding using Cursor IDE and LLM integration. Experienced in building RESTful APIs, secure authentication systems, and scalable web applications following Clean Architecture, SOLID principles, and Agile methodologies.

EXPERIENCE

Full Stack Software Developer Intern | **Fawry Integrated Systems — Cairo, Egypt** | November 2024 – April 2025

- Developed and optimized scalable RESTful APIs and backend services using Java and Spring Boot, contributing to the core infrastructure of full-stack web applications in a production environment.
- Collaborated in a cross-functional Agile team of 5+ engineers to design, implement, and deploy front-end features using Angular and TypeScript alongside Spring Boot microservices on the back-end.
- Improved application reliability through systematic debugging, unit testing, and code refactoring; applied AI-assisted development and prompt engineering to accelerate feature delivery.

PROJECTS

Learnova — AI-Powered Learning Management System (LMS) — *React.js, Node.js, Python, Redux Toolkit, Tailwind CSS, Microservices* | 2024

- Built a full-stack LMS supporting 5+ user roles for 100+ simulated users, integrating Python-based ML models and an AI chatbot via a dedicated microservice for personalized learning.
- Architected a Node.js back-end with a microservices pattern for scalability; developed a responsive React.js front-end with Redux Toolkit for complex real-time state management.

ClinicMate — Hospital Management System — *React.js, Node.js, Express.js, MongoDB, Redux Toolkit, JWT, Tailwind CSS* | 2024 – 2025

- Delivered a deployed, full-stack Hospital Management System ([clinic-mate-sigma.vercel.app](#)) with JWT authentication, role-based access control (RBAC), and team-based Git workflows.
- Built with React.js, Redux Toolkit, and Tailwind CSS on the front-end; Node.js, Express.js, MongoDB, and Mongoose ORM on the back-end.

Real Estate Investment Platform — *ASP.NET Core MVC, C#, Clean Architecture, Entity Framework Core, SQL Server* | February 2026 – Present

- Co-developing a scalable real estate investment platform using ASP.NET Core MVC and C#, applying Clean Architecture and Entity Framework (EF) Core with Microsoft SQL Server for robust data management.
- Implementing layered separation of concerns across domain, application, infrastructure, and presentation layers, improving maintainability and enabling parallel team collaboration.

EDUCATION

Information Technology Institute (ITI) | Intensive Training — Professional Development & BI-Infused CRM
| October 2025 – June 2026

- Full-stack development with .NET Core, ASP.NET Core MVC, Web APIs, Entity Framework (EF) Core, Angular, TypeScript, Node.js, and MongoDB.
- Applied SOLID principles, Clean Architecture, .NET Design Patterns, Agile / Scrum methodologies, Microsoft SQL Server, and Power BI.

Bachelor of Science — Computer Science | **Faculty of Computer & Information, Menoufia University** |
October 2021 – May 2025

- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming (OOP), Operating Systems, Computer Networks, Computer Architecture, Logic Design.

SKILLS

AI & Vibe Coding: Cursor IDE, AI-Assisted Development, Vibe Coding, LLM Integration, Prompt Engineering, GitHub Copilot

Languages: JavaScript (ES6+), TypeScript, C#, Java, Python, SQL, C++

JavaScript Stack: React.js, Next.js, Angular, Node.js, Express.js, Redux Toolkit, HTML5, CSS3, Tailwind CSS, jQuery

.NET Stack: ASP.NET Core MVC, ASP.NET Web APIs, .NET Core, Entity Framework (EF) Core, LINQ, .NET Design Patterns

Databases: Microsoft SQL Server, MongoDB, MySQL, Mongoose ORM, Power BI, Cloudinary

Security: JWT Authentication, bcrypt, Helmet.js, Rate Limiting, XSS Protection, CORS, Role-Based Access Control (RBAC)

Architecture: RESTful APIs, Clean Architecture, SOLID Principles, Microservices, Object-Oriented Programming (OOP), Agile / Scrum

Tools: Git, GitHub, Docker, VS Code, Cursor IDE, Vercel

ACHIEVEMENTS

Ranked 58th out of 200+ teams — 2024 ICPC Egyptian Collegiate Programming Contest (ECPC).
